York University
Bachelor of Commerce
Toronto, ON
Sept 2004 - May 2010

STUDYING

Figma
CSS Variables

WORK EXPERIENCE

Web Developer

Forge Media & Design

Jan 2020 - March 2023

Toronto, ON

Developed websites in a range of languages including HTML, CSS, Javascript, PHP, and ReactJS bringing designs to life and delivering an exceptional user experience.

Built development environments using industry-standard tools such as Wordpress, Lando, Composer, and Docker, to set up efficient and reliable development workflows and ensure seamless project delivery.

Introduced new format for development planning, resulting in a significant reduction in development time while encouraging the adoption of standardized and reusable code.

Principal / Videographer / Drone Operator

Kenzerama Productions

May 2020 - Present

Toronto, ON

Oversee day to day operations for small videography business including marketing, sales, financial management and customer service.

As a member of the event team, I am responsible for managing multiple tasks including filming, drone operation, schedule coordination, and providing same-day editing.

Responsible for post-production tasks such as reviewing and editing footage, ensuring proper backup procedures, and delivering final videos to clients within agreed timelines.

** Additional Work History and References available upon request **

WEB PROJECTS

<https://kenzeramaproductions.com/>

The website for my videography business. Built in HTML, Sass, JavaScript & PHP.

<https://dementiainnewlight.com/>

An interactive web experience to promote awareness and knowledge of dementia. Built with ReactJS using Strapi headless CMS.

<https://metroscg.com/> & <https://supplychainalliance.com/>

A set of Parent / Child theme websites built in Wordpress for a client and their subsidiary.

<https://www.joindrop.com/> & <https://www.dropforbusiness.com/>

A pair of websites built for a client's B2C & B2B marketing channels.
